Pet Grooming Transparency Platform — Heads Up For Tails

[**smritireddy.github.io/trustpaws**](https://smritireddy.github.io/trustpaws)

Login Credentials

Use these credentials to access TrustPaws. Keep this page for your records.

Staff Logins

Role	Email	Password
Admin	admin@huft.com	admin123
Staff	groomer@huft.com	staff123

Parent Logins

Parent Name	Phone	PIN	Pet
Rahul Verma	9999999999	1234	Bruno (Labrador)
Meera Nair	8888888888	1234	Coco (Persian Cat)
Arjun Kapoor	7777777777	1234	Max (Golden Retriever)

 Staff login uses email + password. Parent login uses mobile number + PIN.

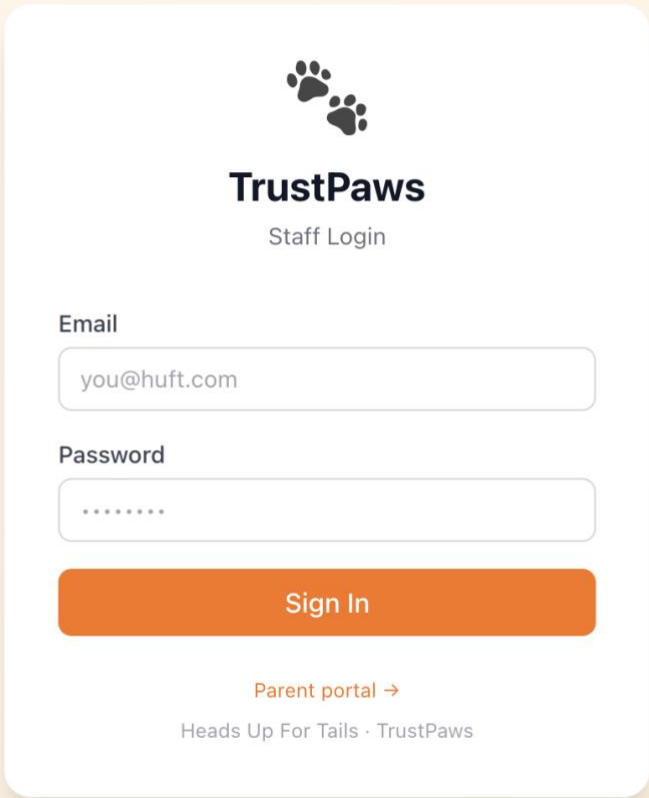

PART 1 — For Staff

Step 1 — Logging In

Go to the app URL and you will see the Staff Login screen.

- Enter your email address — e.g. groomer@huft.com
- Enter your password
- Click Sign In

💡 If you are a pet parent, click 'Parent portal →' at the bottom of this page.

The image shows a mobile app login screen for TrustPaws. It features a white login card centered on a light orange background. At the top of the card is a black paw print icon above the text 'TrustPaws' and 'Staff Login'. Below this are two input fields: 'Email' with the placeholder 'you@huft.com' and 'Password' with a masked password '*****'. An orange 'Sign In' button is positioned below the password field. At the bottom of the card, there is a link for 'Parent portal →' and the footer text 'Heads Up For Tails · TrustPaws'.

Heads Up For Tails · TrustPaws

Step 2 — The Dashboard

After logging in you will land on the Dashboard — your daily overview of all active appointments.

Staff Dashboard

The four cards at the top give you a live count of:

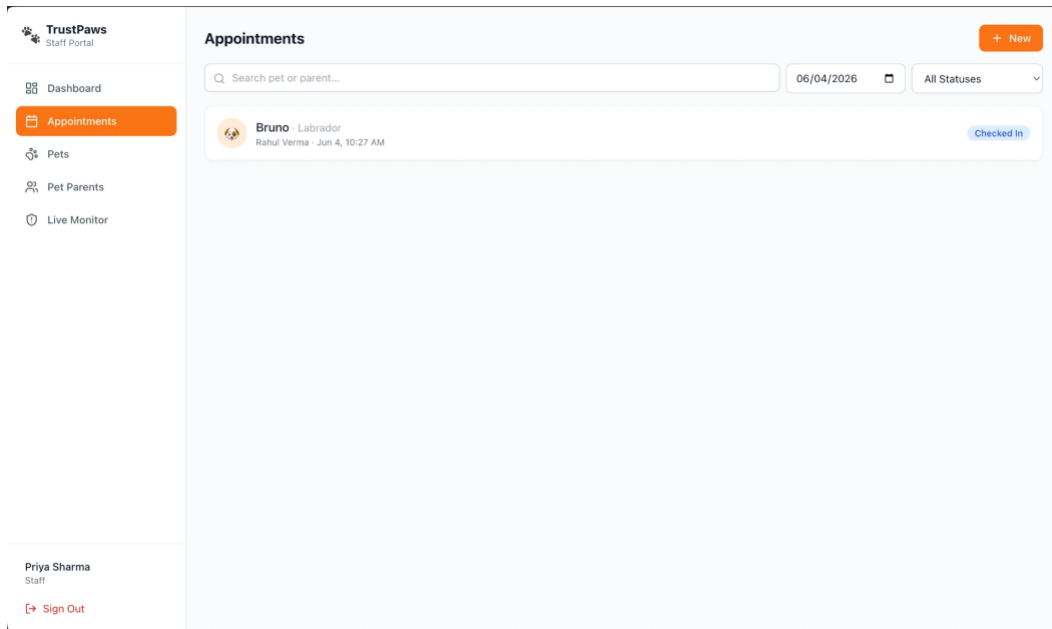

- In Progress — appointments currently active
- Ready Pickup — pets finished and waiting to be collected
- Completed — fully done appointments for today
- Incidents — number of issues logged today

Below the cards, Today's Appointments lists every booking for the day with the pet name, owner, time, and status. Click any row to open the full appointment.

💡 Use the '+ New' button in the top right to create a new appointment.

Step 3 — Appointments List

Click Appointments in the left sidebar to see all appointments.

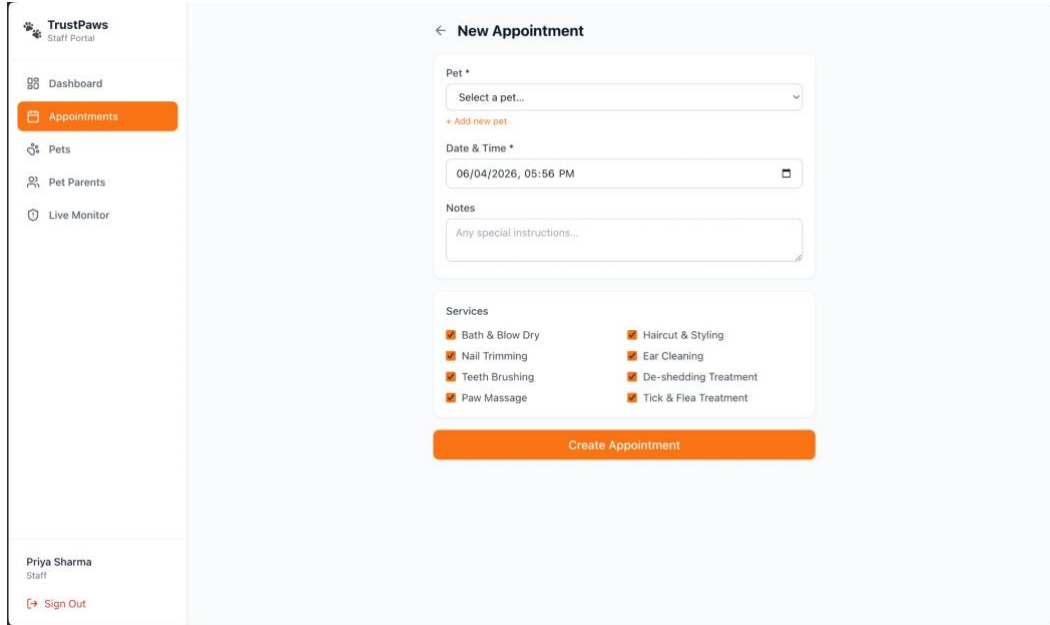

Appointments List

- Search by pet name or parent name using the search bar
- Filter by date using the date picker on the right
- Filter by status — All / Scheduled / Checked In / Bathing / Grooming / Drying / Ready / Completed
- Click any row to open that appointment
- Click '+ New' to create a new appointment

Step 4 — Creating a New Appointment

Click '+ New' from the Dashboard or Appointments page to open the booking form.

The screenshot shows the 'New Appointment' form in the TrustPaws Staff Portal. The left sidebar contains navigation links: Dashboard, Appointments (highlighted), Pets, Pet Parents, and Live Monitor. The main content area is titled 'New Appointment' and includes the following fields:

- Pet ***: A dropdown menu with the text 'Select a pet...' and a link to '+ Add new pet'.
- Date & Time ***: A date and time picker showing '06/04/2026, 05:56 PM'.
- Notes**: A text area with the placeholder 'Any special instructions...'.
- Services**: A list of services with checkboxes, all of which are checked:
 - Bath & Blow Dry
 - Nail Trimming
 - Teeth Brushing
 - Paw Massage
 - Haircut & Styling
 - Ear Cleaning
 - De-shedding Treatment
 - Tick & Flea Treatment
- Create Appointment**: An orange button at the bottom.

The bottom of the sidebar shows the user's name 'Priya Sharma' and a 'Sign Out' link.

New Appointment Form

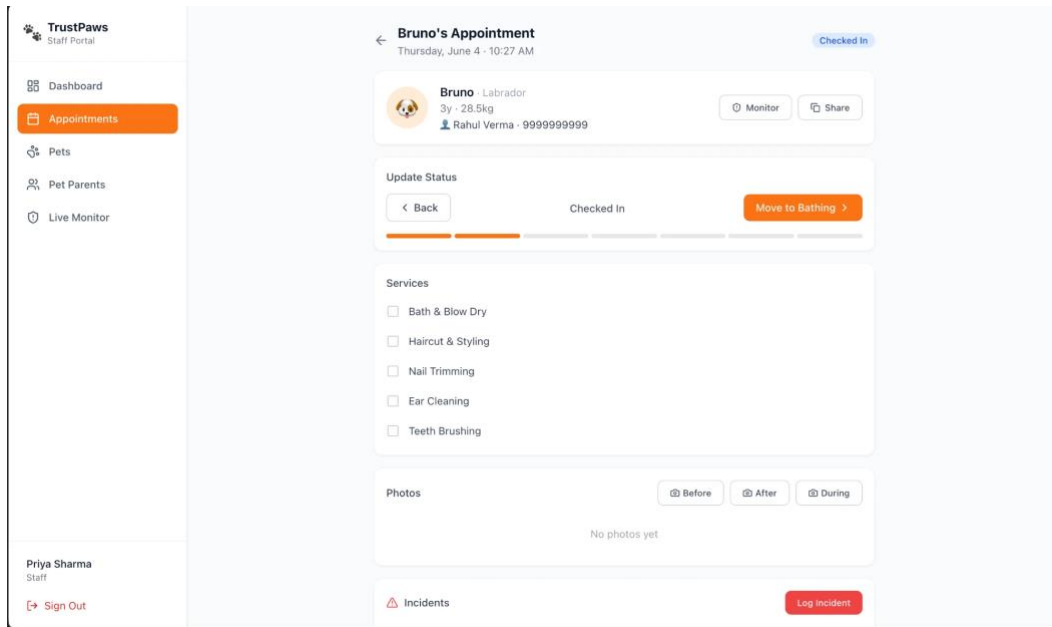

Fill in the following fields:

- **Pet** — search and select an existing pet, or add a new one
- **Groomer** — assign a staff member to this session
- **Date & Time** — when the appointment is scheduled
- **Services** — tick all services included (Bath, Haircut, Nail Trim, Ear Cleaning, Teeth Brushing, etc.)
- **Notes** — any special instructions from the parent, e.g. 'use hypoallergenic shampoo'

Click Create Appointment. The booking is created instantly and a unique tracking link is automatically generated for the parent.

Step 5 — Managing an Appointment

Click any appointment to open its full detail page.

Appointment Detail Page — Bruno's appointment

At the top of the page you will see:

- Pet name, breed, age, weight
- Owner name and phone number
- Monitor button — opens the Live Monitor for this session
- Share button — copies the parent's tracking link to your clipboard

Moving Through Stages

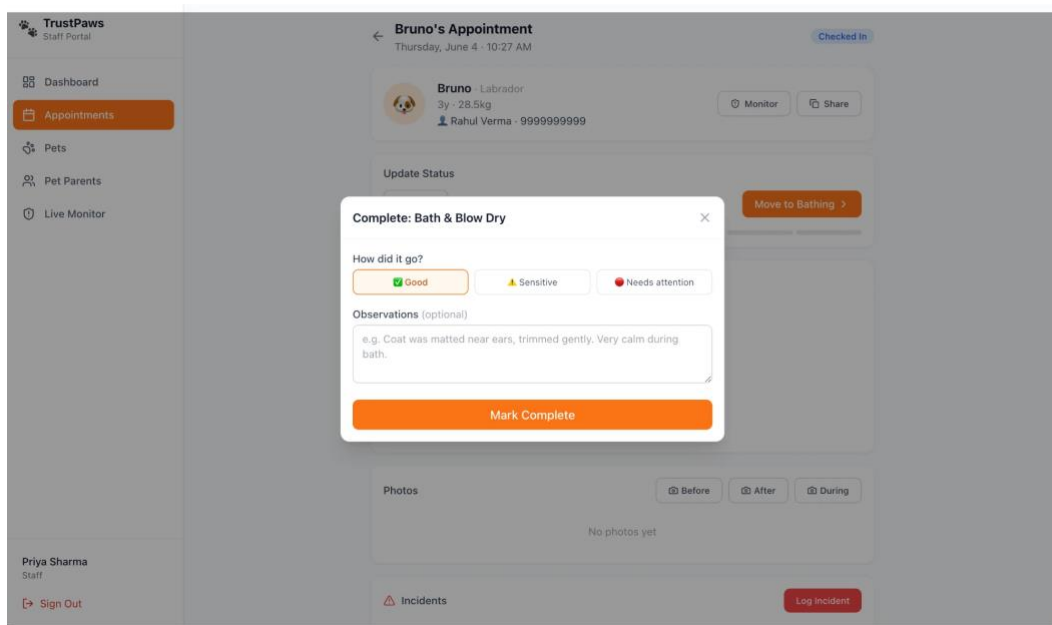

Use the Update Status section to move the appointment through the pipeline:

Scheduled → Checked In → Bathing → Grooming → Drying → Ready → Completed

- Click 'Move to [Next Stage]' to advance the appointment
- Click 'Back' to reverse a step if needed
- The orange progress bar shows how far along the session is

Step 6 — Completing a Service

As each service is finished, tap the checkbox next to it. A completion form will pop up.

The screenshot shows the TrustPaws Staff Portal interface. On the left is a sidebar with navigation links: Dashboard, Appointments (highlighted), Pets, Pet Parents, and Live Monitor. The main content area is titled 'Bruno's Appointment' for Thursday, June 4, 10:27 AM. It shows a dog named Bruno, a Labrador, 3y - 28.5kg, with owner Rahul Verma. A 'Move to Bathing' button is visible. A modal form titled 'Complete: Bath & Blow Dry' is open. It has three radio buttons for 'How did it go?': 'Good' (selected), 'Sensitive', and 'Needs attention'. Below is an 'Observations (optional)' text area with the example text: 'e.g. Coat was matted near ears, trimmed gently. Very calm during bath.' At the bottom of the modal is a 'Mark Complete' button. The background shows a 'Photos' section with 'Before', 'After', and 'During' tabs, and an 'Incidents' section with a 'Log Incident' button. The user 'Priya Sharma' is logged in.

Service Completion Form

How did it go?

-  Good — everything went smoothly, no issues
-  Sensitive area noted — something minor worth flagging to the parent
-  Needs attention — something the parent should be made aware of and discuss

Observations (optional)

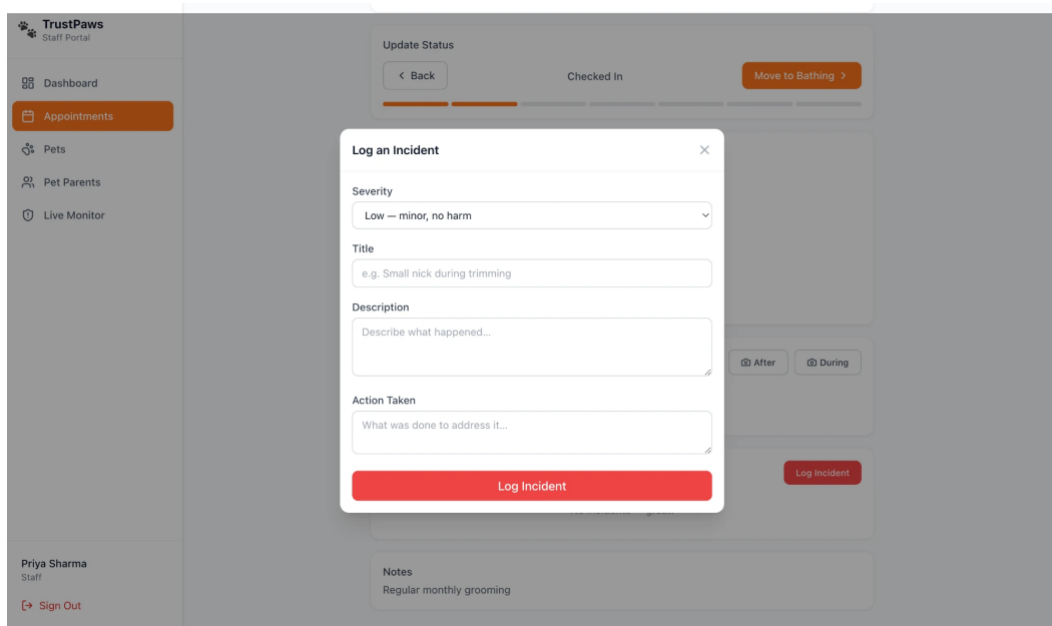

Add a free-text note that the parent will see, for example:

- "Coat was matted near the collar area, carefully detangled."
- "Used hypoallergenic shampoo as requested."
- "Much more cooperative this time!"

Click Mark Complete. The service is checked off and the parent can see your notes immediately on their live tracking page.

Step 7 — Logging an Incident

If anything happens during the session — however minor — it must be logged. TrustPaws is built on full transparency.

The screenshot shows the TrustPaws Staff Portal interface. On the left is a sidebar with navigation links: Dashboard, Appointments (highlighted), Pets, Pet Parents, and Live Monitor. The main content area shows a 'Update Status' section with buttons for '< Back', 'Checked In', and 'Move to Bathing >'. Below this is a 'Log an Incident' modal form. The form has a close button (X) in the top right corner. It contains four text input fields: 'Severity' (a dropdown menu currently showing 'Low — minor, no harm'), 'Title' (with a placeholder 'e.g. Small nick during trimming'), 'Description' (with a placeholder 'Describe what happened...'), and 'Action Taken' (with a placeholder 'What was done to address it...'). At the bottom of the modal is a red button labeled 'Log Incident'. In the background, there are buttons for 'After' and 'During' a session, and another 'Log Incident' button. At the bottom left, the user's name 'Priya Sharma' and 'Staff' are displayed, along with a 'Sign Out' link. At the bottom right, there is a 'Notes' section with the text 'Regular monthly grooming'.

Log Incident Form

To log an incident:

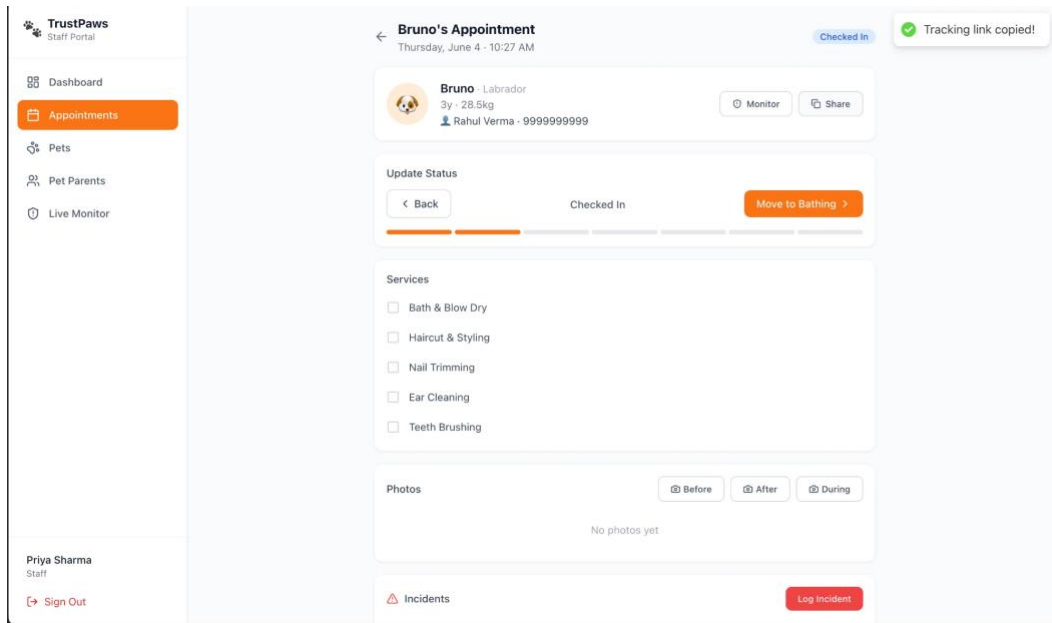

- Scroll to the Incidents section on the appointment page
- Click Log Incident
- Set the Severity — Low (minor, no harm) / Medium (needs attention) / High (serious)
- Enter a Title — e.g. 'Small nick during nail trim'
- Write a Description — exactly what happened
- Write what Action was Taken — e.g. 'Applied styptic powder, monitored for 10 minutes'
- Click Log Incident

🔗 Even a LOW severity incident should be logged. Parents appreciate knowing everything — it builds trust.

Step 8 — Sharing the Tracking Link

Every appointment has a unique parent-facing link that requires no login to view.

- On the appointment detail page, click Share
- A 'Tracking link copied!' confirmation appears in the top right
- Send the link to the parent via WhatsApp, SMS, or any messaging app

Tracking link copied — confirmation toast appears top right

The parent can open this link at any time to follow the session live — status, completed services, groomer notes, incidents, and photos.

💡 You can share the link at check-in so the parent can follow along from the moment the session starts.

Step 9 — Live Monitor

The Live Monitor uses your device's camera and microphone to detect signs of distress during grooming in real time.

[Still working on this 😊]

How to use:

- On the appointment detail page, click Monitor
- Click Start Monitoring
- Allow camera and microphone access when your browser prompts you

What the system detects:

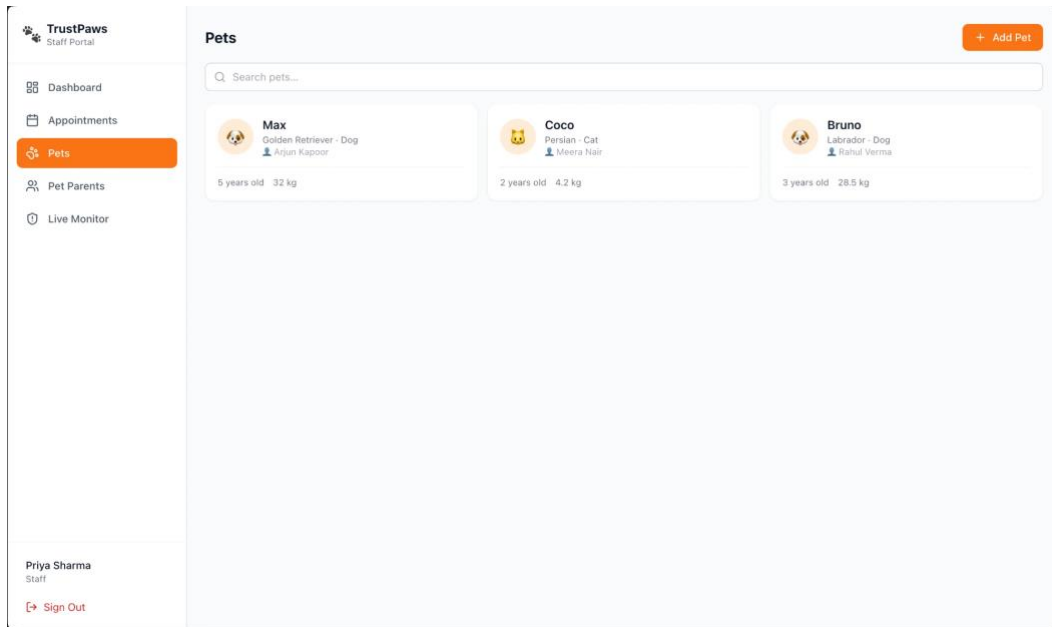

- 😞 Sudden yelp — sharp spike in sound amplitude
- 😞 Whimper / howl — sustained high-frequency sound
- ⚡ Sudden flinch — rapid motion change detected in the video frame
- 🐾 Recoil movement — large frame-difference spike

If distress is detected, an alert banner appears and a clip is automatically saved. Click Save Clip Now at any time to manually record a clip. Click Stop when the session ends.

💡 *Saved clips are stored on the server and shown to the parent in their Clips tab.*

Step 10 — Managing Pets

Click Pets in the sidebar to see all registered pets.

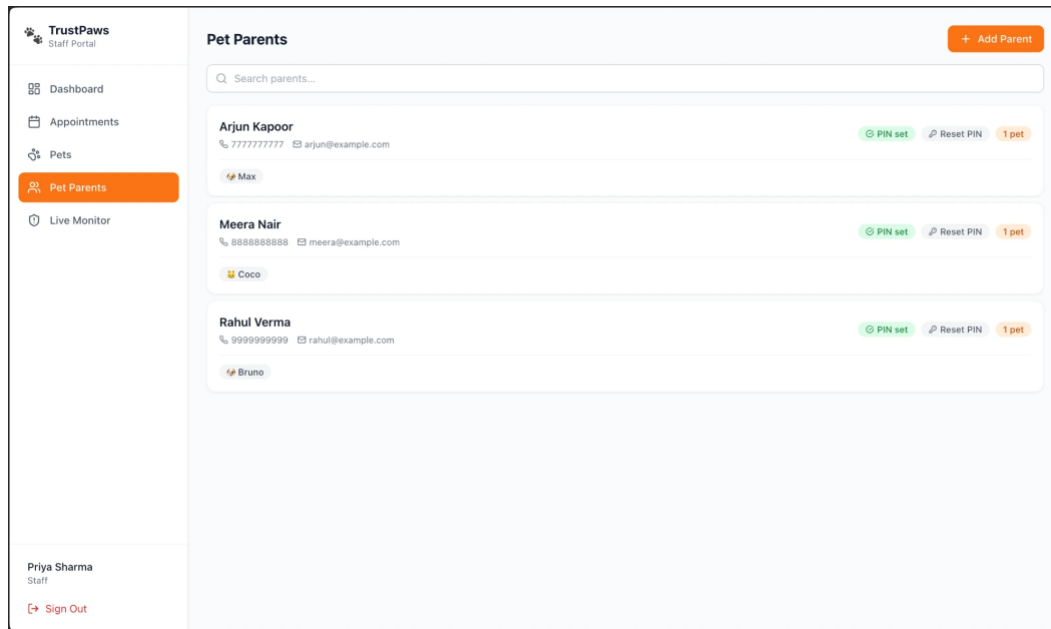

Pets List — Max, Coco, Bruno

Each card shows the pet's name, breed, species, owner, age, and weight. Click any card to open the full pet profile with appointment history and notes.

- Use the search bar to find a pet by name
- Click '+ Add Pet' to register a new pet

Step 11 — Managing Pet Parents & Setting PINs

Click Pet Parents in the sidebar to manage all parent accounts.

Pet Parents List

Each parent row shows:

- Name, phone number, and email
- PIN set badge (green) — confirms the parent can log in to the portal
- Reset PIN button — set or reset their PIN at any time
- Number of pets linked to this parent
- Pet name chips showing which pets belong to them

Setting a Parent's PIN

Parents log into the parent portal using their phone number + PIN. You must set their PIN before they can log in for the first time.

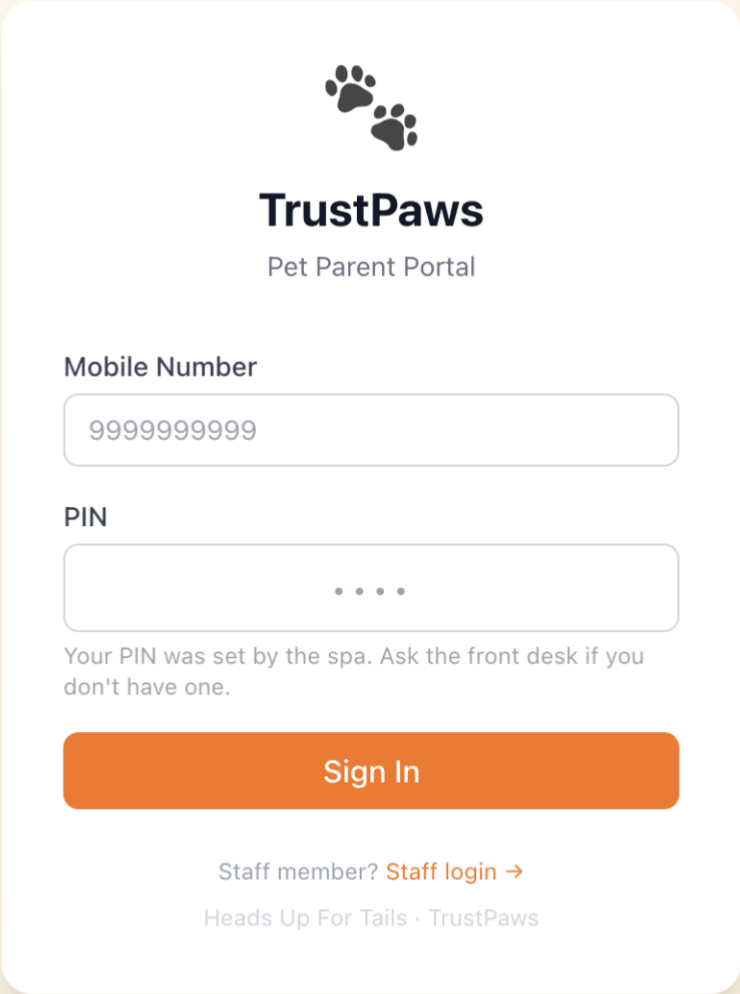

- Click Reset PIN next to the parent's name
- Enter a 4–8 digit PIN
- Save and give the PIN to the parent

💡 If a parent forgets their PIN, click Reset PIN and give them a new one. This takes under 30 seconds.

PART 2 — For Pet Parents

Step 1 — Logging In

Go to the app URL. On the staff login page, click 'Parent portal →' at the bottom.

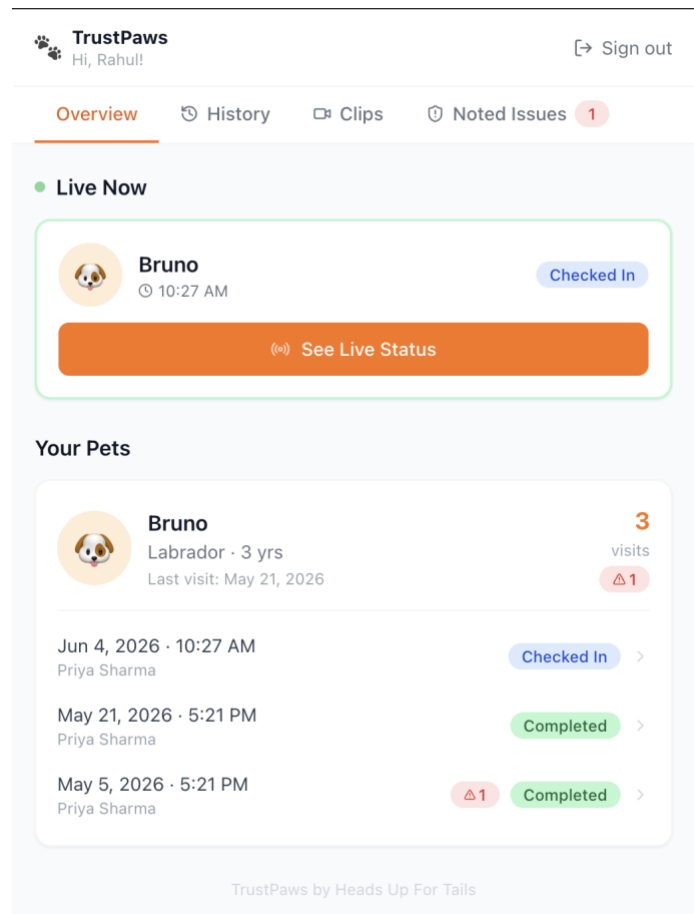

The image shows a mobile app login screen for TrustPaws. At the top, there is a logo consisting of two black paw prints. Below the logo, the text "TrustPaws" is displayed in a bold, black font, followed by "Pet Parent Portal" in a smaller, regular black font. The screen features two input fields: the first is labeled "Mobile Number" and contains the placeholder text "9999999999"; the second is labeled "PIN" and contains four dots. Below the PIN field, a message states: "Your PIN was set by the spa. Ask the front desk if you don't have one." At the bottom of the form is a large orange button with the text "Sign In". Below the button, there is a link that says "Staff member? [Staff login →](#)". At the very bottom, the text "Heads Up For Tails · TrustPaws" is displayed.

- Enter your mobile number — the one registered with the spa
- Enter your PIN — provided by the front desk
- Click Sign In

🔗 Don't have a PIN? Ask the front desk — they can set one for you in under a minute.

Step 2 — Overview Tab

After logging in you will see the Overview tab — your home screen.

Parent Overview Tab

Live Now

If your pet is currently being groomed, a Live Now banner appears at the top showing the current stage and a See Live Status button.

Your Pets

Below that, a card for each of your pets shows:

- Breed and age
- Date of last visit
- Total number of completed visits
- An incident badge if any issues have been logged
- A list of the 3 most recent appointments — tap any to view the full report

Step 3 — Tracking Live Status

Tap See Live Status or open the shareable link the spa sent you to see the real-time tracking page.

[Still working on this 😊]

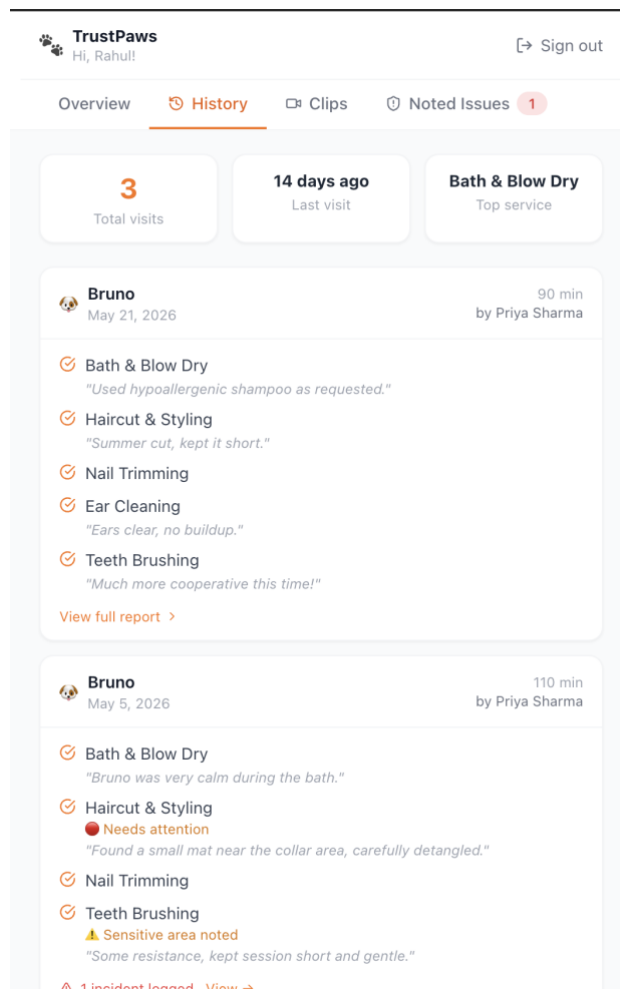

This page shows:

- Status timeline — a visual pipeline showing which stage your pet is at right now
- Services checklist — each service checked off as it is completed with the groomer's notes
- Groomer observations — notes left after each service, e.g. 'Ears clear, no buildup'
- Incidents — if anything was logged it shows here with full details and the action taken
- Your groomer — the name of the staff member handling the session

💡 This page auto-refreshes every 30 seconds. You do not need to manually refresh.

Step 4 — History Tab

Tap History to see a full record of all past visits across all your pets.

Parent History Tab

Summary stats at the top:

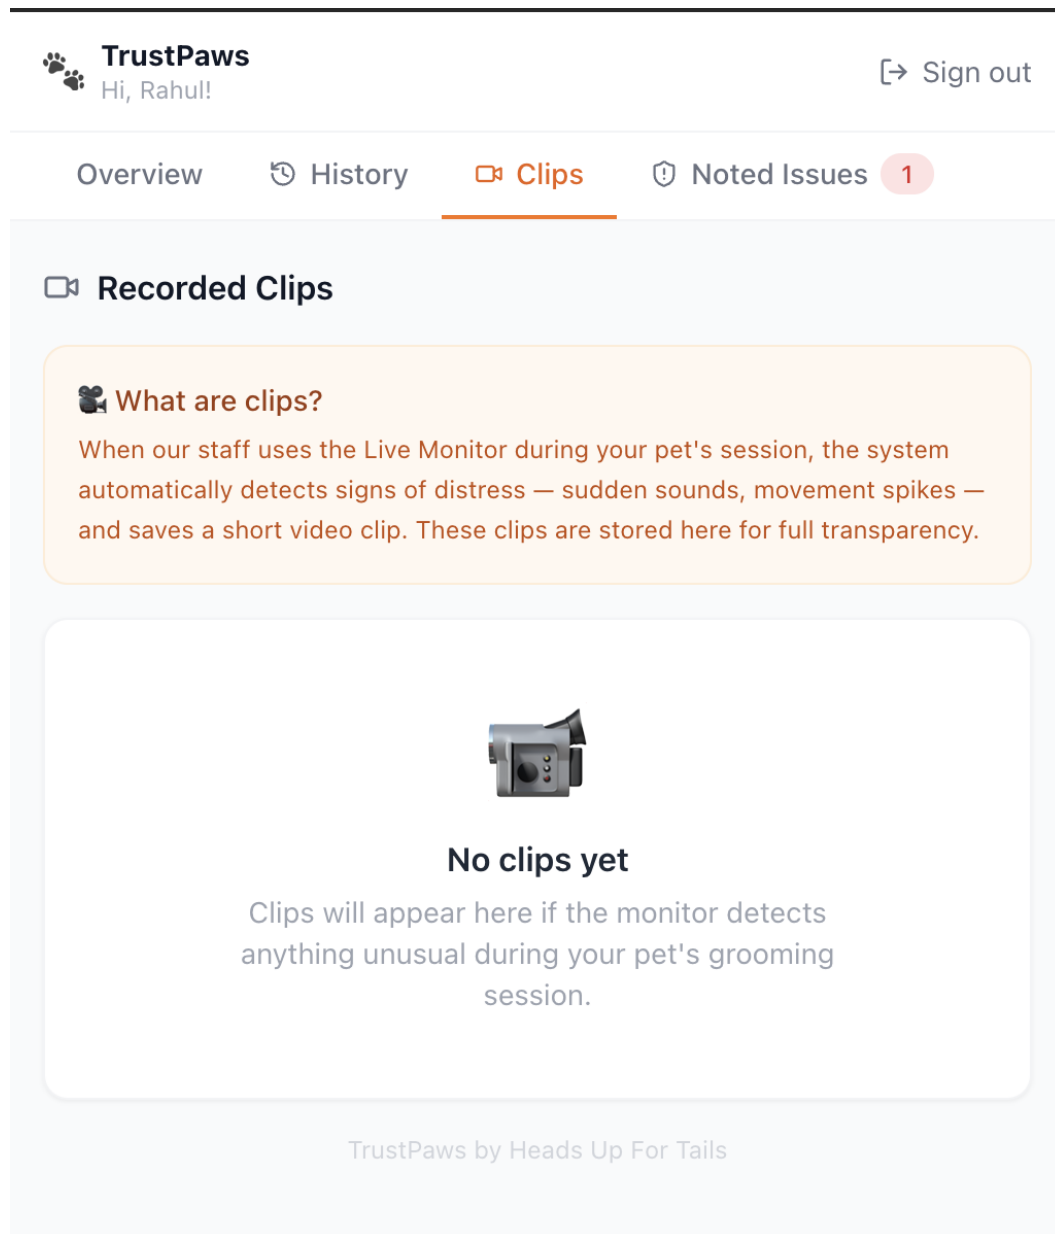

- Total visits — total completed appointments across all pets
- Last visit — how long ago the most recent completed appointment was
- Top service — your most frequently booked service

Each visit card shows:

- Pet name, date, session duration, and groomer name
- Every service completed — with the groomer's condition rating and notes
- An incident badge if something was logged — tap View → to go to Noted Issues
- A View full report → link to open the original tracking page for that appointment

Step 5 — Clips Tab

Tap Clips to see any video clips recorded during your pet's sessions.

Clips Tab — empty state

When the grooming team uses the Live Monitor, the system automatically detects signs of distress — sudden sounds, movement spikes — and saves a short video clip. These clips are stored here for complete transparency.

💡 If monitoring was not active during a session, or nothing unusual was detected, this tab shows 'No clips yet' — which is a good sign!

Step 6 — Noted Issues Tab

Tap Noted Issues to see every incident logged by the grooming team across all your pets.

 **TrustPaws**
Hi, Rahul!

[→ Sign out]

[Overview](#) [History](#) [Clips](#) **[Noted Issues](#)** 1

 **Noted Issues** — all incidents logged by our groomers

We believe in full transparency. Every issue — no matter how small — is logged here. Our team will always discuss these with you.

 Bruno

LOW May 5 · 6:21 PM

Small nick during nail trim

While trimming Bruno's rear left nail, a very minor nick occurred. No significant bleeding. Bruno remained calm throughout.

 **Action taken**
Applied styptic powder immediately. Area monitored for 10 minutes, fully resolved before pickup.

[View full appointment >](#)

TrustPaws by Heads Up For Tails

Noted Issues Tab

Every incident entry shows:

- Pet name and date/time it was logged
- Severity badge — Low / Medium / High
- What happened — full description written by the groomer
- Action taken — exactly what the team did to address it
- A View full appointment → link

💡 TrustPaws logs every incident, no matter how minor. This is intentional — full transparency is at the heart of what we do. The team will always discuss any logged issue with you at pickup.

Quick Reference

Staff Credentials

Role	Email	Password
Admin	admin@huft.com	admin123
Staff	groomer@huft.com	staff123

Parent Credentials

Parent	Phone	PIN	Pet
Rahul Verma	9999999999	1234	Bruno — Labrador
Meera Nair	8888888888	1234	Coco — Persian Cat
Arjun Kapoor	7777777777	1234	Max — Golden Retriever

Appointment Status Flow

Scheduled → Checked In → Bathing → Grooming → Drying → Ready → Completed

Service Condition Ratings

Rating	When to use
✅ Good	All fine, no issues
⚠️ Sensitive area noted	Minor flag for parent awareness — not a formal incident
🔴 Needs attention	Parent should be informed and discuss at pickup
